## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of group 1, claims 1-6, in Paper No. 10 is acknowledged.
2. Claim 7 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 10.

### ***Specification***

3. The disclosure is objected to because of the following informalities: see for example, the improper spacing between words on page 4, line 14.  
  
Applicant is required to review the specification and to correct all such instances.
4. Claims 3, 5 and 6 are objected to because of the following informalities: the improper spacing between the words. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by McMaster, 3,881,887. Please note especially figure 6 and its description. It is the examiner's position that the speed of movement of the tool, and the starting acceleration of the tool must be predetermined, as each motion is motor-driven.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Other similar grinding methods are cited of interest.
8. Any inquiry concerning the content of this communication or earlier communications from the examiner should be directed to M. Rachuba whose telephone number is (703) 308-1361.
